Collision Weather Theft Interior Other

Water Vandalism Fire Under Carriage

Any person who makes a false statement on this form is guilty of a Class A Misdemeanor.

Has this vehicle been damaged in excess of seventy-five percent (75%) of its retail value? Yes No

Explanation of Damage

Signature of Transferor (Seller)

Date

A person repairing, replacing parts, or performing body work on a motor vehicle that is less than nine (9) years old shall provide a statement to the owner of the motor vehicle when the motor vehicle has sustained motor vehicle damage requiring disclosure under this section. The owner shall disclose this damage when ownership of the motor vehicle is transferred. When a vehicle is damaged in excess of seventy-five percent of its retail value as determined by the national automobile dealers association official used car guide, the person repairing, replacing parts, or performing body work on the motor vehicle that is less than nine (9) years old shall also advise the owner of the motor vehicle that the owner of the vehicle must comply with section 39-05-20.2. (See Below)

The amount of damage to a motor vehicle is determined by adding the retail value of all labor, parts, and material used in repairing the damage. When the retail value of labor has not been determined by a purchase in the ordinary course of business, for example when the labor is performed by the owner of the vehicle, the retail value of the labor is presumed to be the product of the repair time, as provided in a generally accepted autobody repair flat rate manual, multiplied by thirty-five dollars.

39-05-20.2. Issuance of salvage certificate of title.

The owner of a vehicle that is damaged in excess of seventy-five percent of its retail value as determined by the national automobile dealers association official used car guide, shall forward the title for that vehicle to the department within ten days and the department shall issue a salvage certificate of title. Glass damage and hail damage must be excluded in the determination of whether a vehicle has been damaged in excess of seventy-five percent of the vehicle's retail value. If a vehicle for which a salvage certificate of title has been issued is reconstructed, a regular certificate of title may be obtained by completing an application for the certificate. The applicant shall include with the application a certificate of inspection in the form required by the department, the salvage certificate of title, and a five dollar fee. The department shall place on the regular certificate of title and on all subsequent certificates of title issued for the vehicle, a notation that damage disclosure information is available from the department. The department may not issue a new certificate unless the vehicle identification number of the vehicle has been inspected and found to conform to the description given in the application, or unless other proof of the identity of the vehicle has been provided to the satisfaction of the department.
