

Stormwater Management Training
Wednesday November 28, 1:30 to 4:30 p.m.
Best Western Ramkota Hotel, Bismarck

Matt Sperry, NDDOT Environmental and Transportation Services

Regulatory action regarding storm water management practices has increased and NDDOT is subject to regulatory review. The training provided in this session will enhance the participant's knowledge of storm water management practices by providing guidance on erosion and sediment controls, SWPPPs, MS4s, and their implementation preliminary plan development and construction activities.

The training will highlight:

- New Specifications
- Recap field visits from 2012
- Identify Storm Water Pollution Prevention Plan Procedures
- Identify how to make field changes
- Include roundtable discussion
- Identify MS4 practices in an urban setting
