Traffic to switch to adjacent lanes on ND Highway 1804 north of 40th Street Northwest in New Town beginning Monday, October 6

Beginning on Monday, October 6, road work crews will move traffic from a temporary gravel surface to an adjacent southbound newly paved lane on ND Highway 1804 in New Town between 40th Street Northwest and 41st Street Northwest and extending north for 3,500 feet.

Traffic will be rerouted and remain head to head so that crews can continue paving work in the area. Traffic will continue to be reduced to one lane in each direction. This work is in regards to the New Town Truck Reliever Route project and another project which includes reconstruction of the ND Highway 23 and ND Highway 1804 intersection, paving, new intersection signals and an additional center turn lane on ND Highway 1804.

During construction:

- Traffic will be head to head
- Speeds will be reduced to 25 mph
- Motorists should expect delays
- Flaggers will be in place as needed
- An 11-foot width restriction will be in place

The lane restriction will be removed in mid-October.

The NDDOT Williston District serves the transportation needs of the communities in northwestern North Dakota, including Williston, Alexander, Watford City, New Town, Stanley, and Berthold. NDDOT has been working very hard to build new bypasses, expand roadways, and provide roadway improvements that will enhance traffic movement in this very fast growing part of the state to get motorists where they need to go safely. To learn more about this year's projects visit www.nddotwilliston.com.
