Lighting installation to take place on US Highway 85 and ND 23 intersections in Watford City area

The North Dakota Department of Transportation and Watford City officials are working together on a project that involves installing additional roadway light structures on the US Highway 85 and ND Highway 23 corridor near Watford City.

Crews will install the interim roadway lights at the following intersections in the Watford City area:

- At the intersection of US Highway 85 and County Road 30
- At the intersection of US Highway 85B and ND Highway 23
- At the northwest intersection of US Highway 85 and US Highway 85B
- At the intersection of ND Highway 23 and 125th Avenue Northwest
- At the intersection of ND Highway 23 and 26th F Street Northwest

Work will primarily be done off of the roadway, but temporary shoulder and lane closures may be necessary at times. It is recommended snowmobilers avoid the work area and use an alternate route if possible. The project is scheduled to be completed in mid-February.
