I-94 Roadwork in Bismarck-Mandan is Officially Complete

BISMARCK, N.D. – The North Dakota Department of Transportation (NDDOT) is pleased to report today that the roadwork along I-94 through Bismarck and Mandan is complete. All lanes are open to traffic, speeds are back to their regularly posted limits and the 12-foot width restriction is lifted. The project was completed on time and on budget, with no major delays or issues since it began last Spring.

“We want to thank motorists for their patience during construction as the contractors worked efficiently and effectively to repair I-94,” said Larry Gangl, NDDOT Bismarck District Engineer.

This entire construction project has involved all lanes of I-94 in Bismarck-Mandan from just east of Exit 161 (Bismarck Expressway) to the west side of the Grant Marsh Bridge over the Missouri River, which is approximately 5 miles. The project included concrete pavement repair, asphalt overlays and bridge work. The Interstate has remained open to traffic throughout the project, utilizing a combination of lane closures and head-to-head traffic, with speeds reduced to 45 mph or less throughout the corridor.
