Lane Closures to Begin on I-94 Near Mandan Ave. Bridge

BISMARCK, N.D. – Road construction on I-94 through Mandan started in April and crews will begin additional lane closures near the Mandan Ave. and Burlington Northern Railroad Bridges on Wednesday, April 10. Travelers should expect traffic to be reduced to one-lane with reduced speeds for west and east bound traffic. A 17 ft width restriction will also be in place at the Mandan Ave bridge at Exit 153.

Roadwork is in progress on a two-mile segment of Bismarck Expressway from just east of Bismarck Expressway Bridge to I-94 west toward Mandan. Additionally, work is in progress on a half-mile segment of I-94 Eastbound at Exit 156 (East Midway Interchange). Traffic lanes have been reduced by one lane in each direction and speed limits are reduced, in addition to width and height restrictions in some areas. Electronic signs alerting travelers to the work have been put in place in a continual effort to ensure the community and surrounding areas are aware of the project.

The North Dakota Department of Transportation (NDDOT) wants the public to be aware as early as possible of the I-94 construction project through Mandan and encourages local motorists, which include businesses and commuters, to plan ahead during the upcoming construction season.

I-94 will be open to traffic at all times throughout this process, utilizing a combination of lane closures and head-to-head traffic. Width restrictions will be in place and the speed limit will be reduced to 45 mph or lower at times throughout the construction zone. Construction work is expected to be completed in late fall.

Regular updates on construction progress will be provided to the public throughout the construction project.
