Westbound Traffic on I-94 to Be Shifted to Passing Lane This Wednesday

BISMARCK, N.D. – On Wednesday morning, May 24, westbound traffic on I-94 through Bismarck will be shifted to the passing (left) lane, as construction work continues throughout the corridor. The lane shift will start just west of the N Washington St bridge, and traffic will be shifted back to the driving (right) lane just west of Exit 157 (W Divide Ave / Tyler Parkway).

Construction work on I-94 is currently taking place. I-94 will continue to be open to east and westbound traffic throughout the construction project, utilizing a combination of lane closures and head-to-head traffic. Twelve-foot width restrictions remain in place and the speed limit is reduced to 45 mph. Speeds may be reduced even further at times throughout the construction zone. Construction work is expected to be completed in late fall.

Regular updates on construction progress will be provided to the public throughout the construction project.

For more information, visit www.i94bisman.dot.nd.gov or I-94 Bis-Man Project on Facebook.
