Exit 161 Off-Ramp from Eastbound I-94 onto Bismarck Expressway Under Repair on Monday

BISMARCK, N.D. – The off-ramp from eastbound I-94 onto Bismarck Expressway at Exit 161 will be narrowed for repair work starting on Monday, June 12, as part of the Bis-Man I-94 Project. Work will begin mid-morning on Monday and continue throughout the week. The ramp will remain open to traffic while the roadwork is being done. Drivers should slow down and use caution when traveling through the work zone.

Construction work on I-94 is currently taking place from the Grant Marsh Bridge in Mandan to Exit 161 (Bismarck Expressway) in Bismarck.

During construction:

- I-94 will continue to be open to east and westbound traffic throughout the construction project, utilizing a combination of lane closures and head-to-head traffic.
- Twelve-foot width restrictions remain in place
- Speeds are reduced to 45 mph. Speeds may be reduced even further at times throughout the construction zone.
- Vehicles are encouraged to use the zipper merge technique to enter sections of lane reductions in this project. To zipper merge, use both open lanes until the orange cones direct traffic into a single lane. At that point, vehicles should take turns alternating into the lane reduction to move more traffic more efficiently through the construction zone.

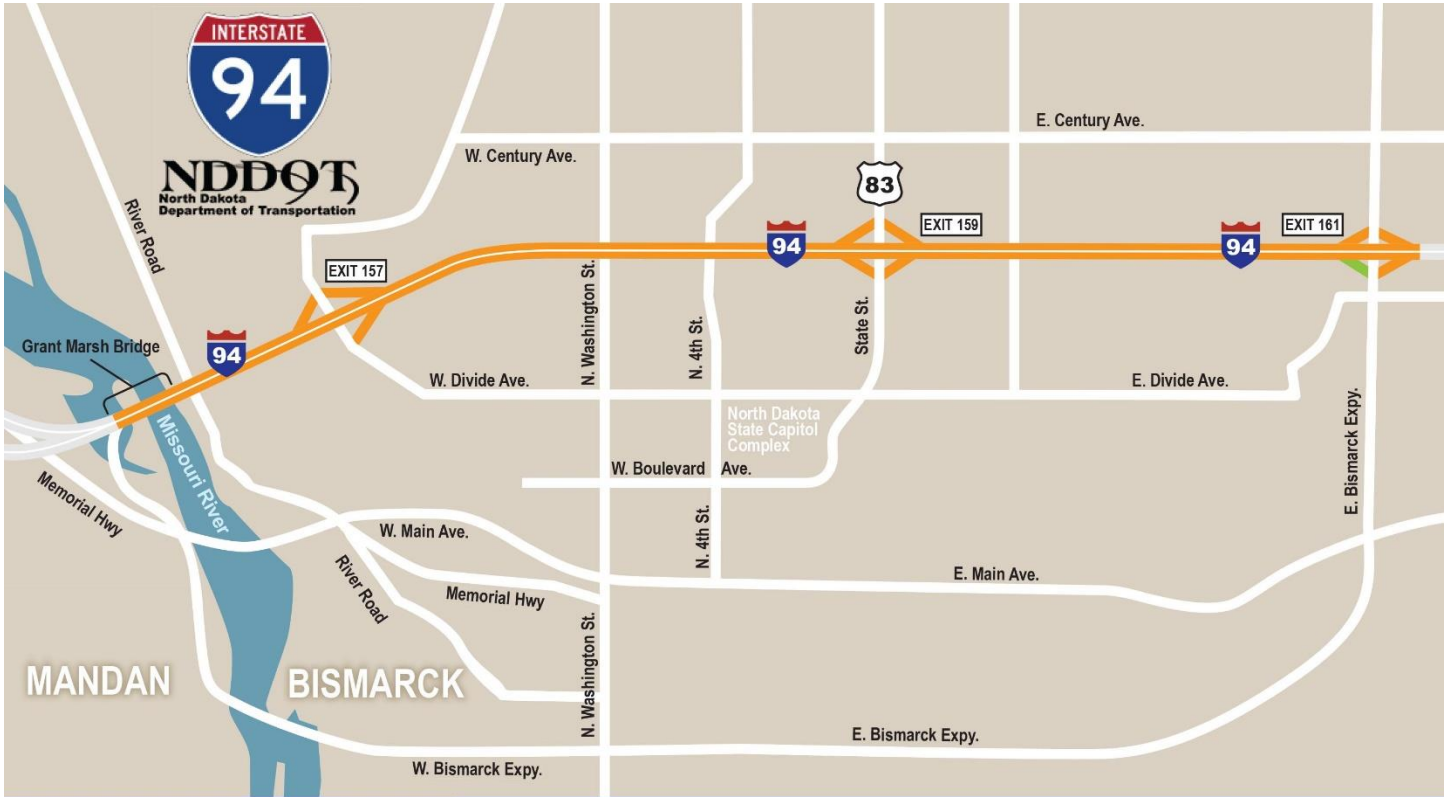

Construction work is expected to be completed in late fall.

Regular updates on construction progress will be provided to the public throughout the construction project.
